Redwood Writers is proud to join the California Writers Club (CWC) and Sonoma County Regional Parks Foundation, and many others to keep our parks open. The Valley of the Moon Natural History Association has been appointed by the State to operate the Jack London State Historic Park. This park, over 50 years young, was slated to be closed due to budget cuts. Jack London was one of the founders of the CWC. His ranch in Glen Ellen and the beautifully restored London cottage are places where one can glimpse into this writer's world and gain inspiration from his persistence and talent. Our donations go toward the continuing legacy of Jack London and all he represents for writers everywhere.
